Portfolio: portfolio-3-tggt.onrender.com

PROFESSIONAL SUMMARY

Computer Science Engineering student with project experience in Python, SQL, data analytics, dashboard development, and AI-powered applications. Familiar with Tableau and Power BI for data visualization and with Python libraries for data analysis. Interested in Data Analytics, Data Science, and Machine Learning, with a focus on building practical, data-driven solutions.

TECHNICAL SKILLS

Programming:	Python, SQL, Java, JavaScript, HTML, CSS
Data Analytics & BI:	Tableau, Power BI, Data Analysis, Data Visualization
AI & Data:	Generative AI, Prompt Engineering, NumPy, Pandas
Frameworks & Tools:	React, Node.js, Express.js, Flutter, MongoDB, Anaconda, Conda, Microsoft Office

PROJECTS

Customer Churn Prediction
- Analyzed customer data to identify churn patterns based on customer tenure, contract type, and service usage.
- Explored customer behavior and developed insights to support customer retention strategies.

Tech Stack: Python, Pandas, Scikit-learn, SQL, Power BI

Google Play Store Analysis
- Performed data cleaning and exploratory data analysis on Google Play Store data to examine app ratings, reviews, installs, and categories.
- Identified app performance trends and compared application categories.

Tech Stack: Python, Pandas, NumPy, Matplotlib, Seaborn

Diabetes Data Analysis
- Analyzed a diabetes dataset to explore patterns across glucose levels, BMI, age, and other available health-related variables.
- Created data visualizations to identify correlations and compare recorded outcome patterns.

Tech Stack: Python, Pandas, NumPy, Matplotlib, Seaborn

Breast Cancer Data Analysis
- Performed exploratory data analysis on a breast cancer dataset to examine tumor-related features and recorded diagnosis groups.
- Applied data visualization and statistical analysis to identify patterns in the dataset.

Tech Stack: Python, Pandas, NumPy, Matplotlib, Seaborn

Unemployment Trend Analysis
- Analyzed unemployment data to explore changes over time and compare trends across available regions.
- Created visualizations to highlight unemployment patterns and communicate key economic insights.

Tech Stack: Python, Pandas, NumPy, Matplotlib, Seaborn

INTERNSHIPS & EXPERIENCE

Data Analyst Intern – Thiranex
- Developed five dashboards using Tableau and Power BI.

Data Science Intern – CodeAlpha
- Gained experience with Python, NumPy, Pandas, Anaconda, and Conda.

Power BI Intern – CodeAlpha
- Developed interactive Power BI dashboards and used DAX to create calculated measures for data-driven analysis.

Data Analytics Intern – CodeSoft
- Developed interactive dashboards to analyze business data and track key performance indicators, including profit and loss.

Data Analytics Intern – Oasis Infobyte
- Developed interactive dashboards to analyze business data and track key performance among the analysis

EDUCATION

B.E. Computer Science and Engineering | Sri Shakthi Institute of Engineering and Technology | 2024–2028 | **CGPA: 8.3**
Class XII: 85.6% (2024) – Bannari Amman Vidya Niketan MHSS
Class X: 90.2% (2022) – Bannari Amman Vidya Niketan MHSS

CERTIFICATIONS & PUBLICATIONS

Databases & Programming: NPTEL DBMS (Elite 60%) | HackerRank SQL (Intermediate) | HackerRank SQL (Basic) | HackerRank Java (Basic)
Industry & Simulations: Thiranex Data Analytics | TATA GenAI Analytics | Deloitte Data Analytics | CodeAlpha (Power BI & Data Science) | Prodigy Web Dev
Cloud AI & Research: AWS Generative AI | Great Learning (Excel & Digital Mktg) | Research Papers: Touch Free Extension & Festivo (UGC-CARE/Scopus)

AREAS OF INTEREST & STRENGTHS

Areas of Interest: Machine Learning, Data Analytics, Artificial Intelligence, Computer Vision, Business Intelligence, Data Engineering
Strengths: Problem Solving, Analytical Thinking, Self-Learning, Team Collaboration, Communication
